- Project Tools: Azure DevOps, Travis-CI, Heroku, Git, Github, Gitlab, VSC, Jest, Enzyme, Agile, npm

## EXPERIENCE

Microsoft - Redmond, WA | *Software Design Engineer (via Inconsulting)* | Jul 2018 – Nov 2018

- Microsoft LEAP Engineering Acceleration Program (LEAP) is an immersive, 16-week apprenticeship program providing real-world software engineering experience
- Developed React based internal web app to demonstrate the value of CIS and MPAA
- Implemented fully automated CI/CD pipeline for code deployment using Azure DevOps
- Integrated organization based authorization through Azure AD
- Configured PowerBI reports with CosmosDB data embedded into the web app for data visualization

Wyncode Academy - Miami, FL | *Teaching Assistant* | Apr 2018 - Jul 2018

- Teach technical classes and assist Lead instructors with lessons
- Assist students with final projects and challenging assignments
- Provide instructional one-on-one sessions with students to explain programming concepts
- Conduct pair programming sessions with students and provide valuable code feedback

Vacation Village Resorts - Miami, FL | *Real Estate Agent* | Mar - Oct 2016

- Consistently met and exceeded personal sales goals of \$150k a month
- Provided excellent service explaining the benefits of ownership in an engaging and friendly manner

Brabo Inc - Miami, FL | *Web Developer & Sales Representative* | Jan 2008 - Oct 2015

- Developed multiple client specific websites to showcase custom products and purchase options
- Effected a 40% sales increase, due to efficiency, by creating a proprietary customer management SQL database
- Increased revenue by conducting sales and acquiring new accounts at trade shows nationwide
- Designed four of the top 10 best selling products, which are still in distribution world-wide

CandiceDavidson.com - Miami, FL | *Web Development and Design Consultant* Jan 2001 - Jan 2008

- Managed web development and design projects from concept to completion
- Created and custom WordPress PHP templates and layout designs in Photoshop
- Worked with small to medium sized business' to develop marketing solutions including web design, wiki page copywriting, promotional literature and press kits

## PROJECTS

[ClickItOn](#) - React.js, Redux, Materialize, Sass, Travis-CI, CI/CD

- Entertainment hub that allows users to view new and upcoming releases, search for movies, view cast bios and the latest in entertainment news.
- Currently integrating Redux for improved state management of data from multiple API's.

[Feedback App](#) - React.js, Redux, Express, MongoDB, Node.js, OAuth, Travis-CI, CI/CD

- Application that allows users to log in and create a form to collect feedback from customers.
- Customers are able to respond by email, users are then able to review feedback from their dashboard.
